

Type Coffee Vending Machine	Model KORO PRIME	N° T.I. 01 - 2019
Serial Number 90810314	Subject Replacement of the "NiMh" battery with "lithium" battery	ISSUED FOR (X)
		Action Information X

REASON:

It's necessary to avoid the fast discharge of the **NiMh** battery, when the machine is disconnected from the mains for a period longer than 1.5 months.

The **NiMH** battery discharges too quickly as a consequence of its *self discharge* current.

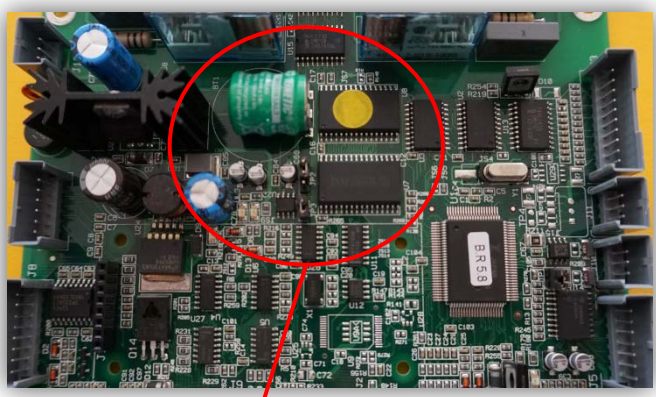

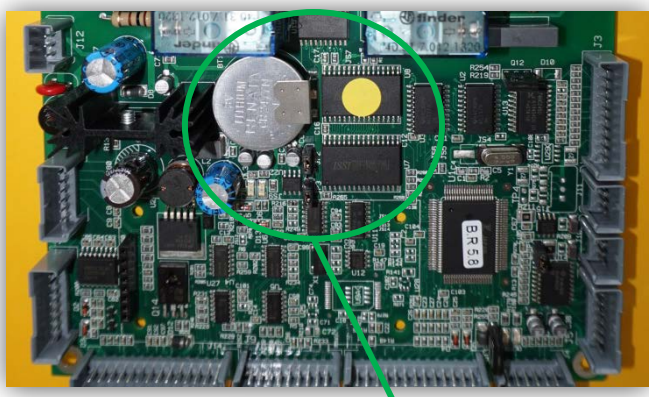

MODIFICATIONS:

The **NiMh** battery has been replaced by a **lithium** battery.

In addition, the **resistor** has been replaced by a **schottky diode**, which prevents the current from reaching the **lithium** battery, when the machine is connected to the mains.

New
CPU - Actuator board 16 Bit 4M

Pre-modification
CPU - Actuator board 16 Bit 4M

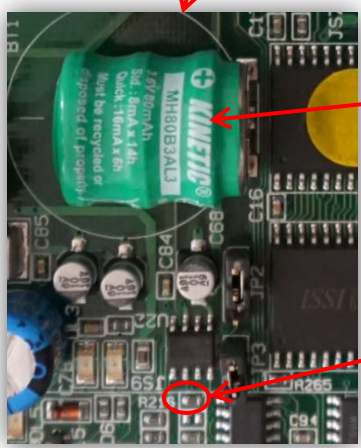

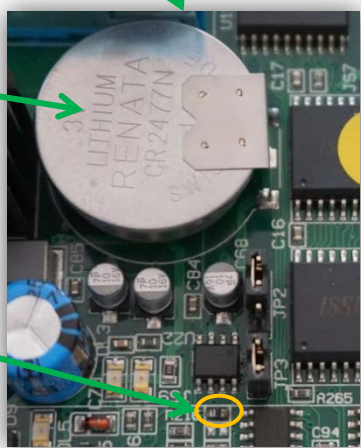

Lithium battery

NiMh battery

Schottky diode

Resistor
