

TECHNICAL INFORMATION

Range H&C - OCS – HO. RE.CA	Model ALL ESPRESSO	T.I. Nr 18_2011
Serial Number 12011835	Subject <u>BOILER GASKETS</u>	Complaint Nr N 10/064

A new silicon gasket made of **(VMQ LSR)** has been introduced between the 2 cases of espresso boiler, instead of the previously type consisting of material EP 851.
Furthermore the gasket of temperature probe has been changed from EP 851 to **VITON** material.

Codes involved are:

- 098701** gasket ES. boiler 200/300cc
- 099748** gasket ES. boiler 600cc
- 095624** gasket temperature probe

USA market (ONLY):

- 0V3354** gasket ES. boiler 300cc
- 0V0758** gasket ES. boiler 600cc
- 0V0779** gasket temperature probe

The spare parts stock has been restored.

New gaskets have been progressively implemented on the different espresso modules (brand Necta and Wittenborg), and can be considered effective on full range from S/N **12011835**.
