Dispenser(s): *Kometa*
Title: Lock canisters

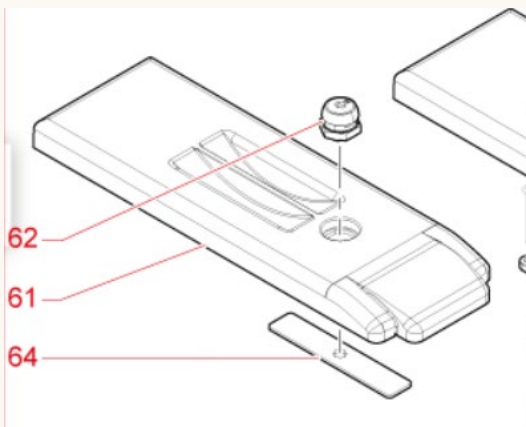

Background:

With the introduction of the Kometa within JDE, there was no option to secure the lid of the canisters with a lock. The supplier now has now made spare parts available to install this option.

Solution:

If there is a need to lock the lid from the canister, extra parts has to be ordered and mounted to the machine.
Per canister:

55128383 LOCK -WITHOUT KEY-
55128384 LOCK COVER
55128385 LATCH LOCK

The lock will be delivered without keys, the key is the same as door key.
