➤ *Machines concerned by modification from S/N:* **31921663**

EXCHANGEABILITY:

For machines prior to above S/Ns, if it is necessary to replace the CPU board, the **new** CPU board must be used, spare code **266090**.

The **new** CPU board can run only with the SW *Application Key 2* below:

➤ Opera Touch: **Key 2** rev. **1.12.23** or later.

These SW *Application Key 2* versions are also compatible with the **pre – modification** CPU board, spare code **265669**. Therefore, if you want to update the machines SW, without replacing the CPU board, (keeping the **pre - modification** CPU in the machine) you can do it without any additional action.

The SW *System Key 1* update to the latest revision, rev. **1.1.13-2** or higher it is not mandatory for the CPU board running, but it is always advisable.

The **pre - modification** CPU board (spare code **265669**) will be out of stock.

The USB **dongle**, spare code **265617**, and the USB **extension**, spare code **265618**, will be available.
