

### **Sustainable production for the next generation**

In order to give substance to our social role, we use 1300 solar panels, accounting for 2,080 m<sup>2</sup> of roof area, which means an annual reduction of 45,000 Kg of CO<sub>2</sub> emissions, which means 0% CO<sub>2</sub> emissions. In addition, we work as standard with sustainable materials, which has earned us the PEFC quality mark for approved wood, among other things. In addition, Finitouch will be 100% gas-free from mid-2020.

### **All Finitouch investments for 2020 in a row:**

- **1300 Solar panels**
- **2880 m<sup>2</sup> Total surface area of solar panels**
- **295,000 KWH Total generation per year**
- **0% CO<sub>2</sub> emissions**
- **7 Electric commercial vehicles**
- **100% of employees are VCA certified**
- **8 Wind turbines**
- **100 % Gas-free**
- **Waste separation**
- **Circular**
- **Greenwaste**
- **All our residual waste is separated and reused for new products**
- **PEFC certified**
- **Blue Diesel - ESSO**

### **Circular Economy.**

Circular economy is an economy that operates on the basis of a circular idea, in which products are made as much as possible from renewable or easily recyclable raw materials, using as little energy and transport as possible, **and in which products can be (re)used for as long as possible.**

### **We take this into account:**

- **Raw materials**
- **Energy and transport**
- **Recycling &**
- **Renewable energy**

Energy use is largely determined by the raw materials used. The production process from wooden board material to product requires comparatively much less energy than plastic or steel. An additional point of attention is the extent to which the producer makes energy savings in the further production process and applies sustainable energy generation.

We organise our production 100% energy-neutral and our residual flows in such a way that as much of this as possible is recycled or produces green energy. The application of the collected soil and waste materials in cooperation with Greenwaste is as follows:

- Reuse 76%
- Green energy 14%
- Grey energy 9%
- Deposit 1%

### PEFC Certified

You can be sure that wood with the PEFC quality mark comes from a well-managed forest. A PEFC forest is demonstrably sustainably managed, in a way that protects nature, respects the rights and safety of workers and indigenous people and makes money out of the harvested wood.

SKH-PEFC GROEP CERTIFICAAT**

---

**Finitouch Interieurbouw B.V.**  
Algolweg 6  
3821 BH AMERSFOORT

---

**Chain of Custody**

Voldoet aan de PEFC International Standard PEFC ST 2002:2013  
Chain of Custody of Forest Based Products en is als zodanig  
geregistreerd onder het SKH-PEFC Groep Certificaat van  
**Ingenieursbureau Evan Buytendijk B.V.**

SKH erkent het Chain of Custody systeem van deze groepsdeelnemer  
op grond van de periodieke inspecties op het COC systeem  
voor de periode van:  
**8 september 2014 tot 29 september 2020**

Dit certificaat is geldig voor de productie van de productcategorie(ën):  
08000 Houten producten  
volgens de fysieke scheidingsmethode waarbij gebruik is gemaakt van  
gecertificeerd materiaal (Appendix 1, criterium 1.3)

---

Geldigheid van het groepscertificaat is te controleren via:  
<http://www.pefcnederland.nl>

Subcode groepsdeelnemer  
**SKH-PEFC-COC-5042-CM**

---

**Dit bewijs van deelname blijft eigendom van SKH**

Dit bewijs van deelname bewijst op zichzelf niet dat een bepaald product geleverd  
door de groepsdeelnemer PEFC gecertificeerd is.  
Producten aangeboden, vervoerd of verkocht door de groepsdeelnemer  
vallen alleen onder het certificaat wanneer de vereiste PEFC claim en code  
duidelijk vermeld is op facturen en transportdocumenten.

---

Reproductie van het volledige certificaat is toegestaan.
