

T.I. no.: 2015-03-b Updated: 16.02.2015	Topic: Steam nozzles
----------------------------------------------------------	-----------------------------

Date: 22/01/2015
Affected machines: SCP
From serial number: 1510...
From date: Calendar week 10

Priority
High
X Medium
Low

Need for action
As soon as possible
X On next visit to the machine
FYI only

OVERVIEW

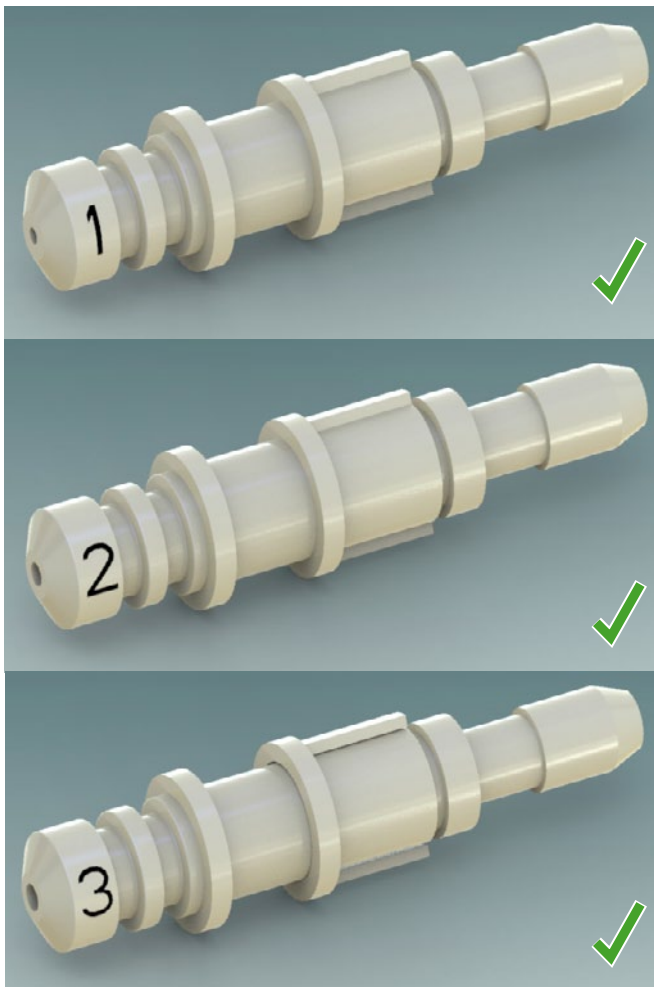

To allow unambiguous identification of the steam nozzles, numerical designations will now be used in place of colour markings. The numbers will be engraved on the steam nozzles.

NOTE

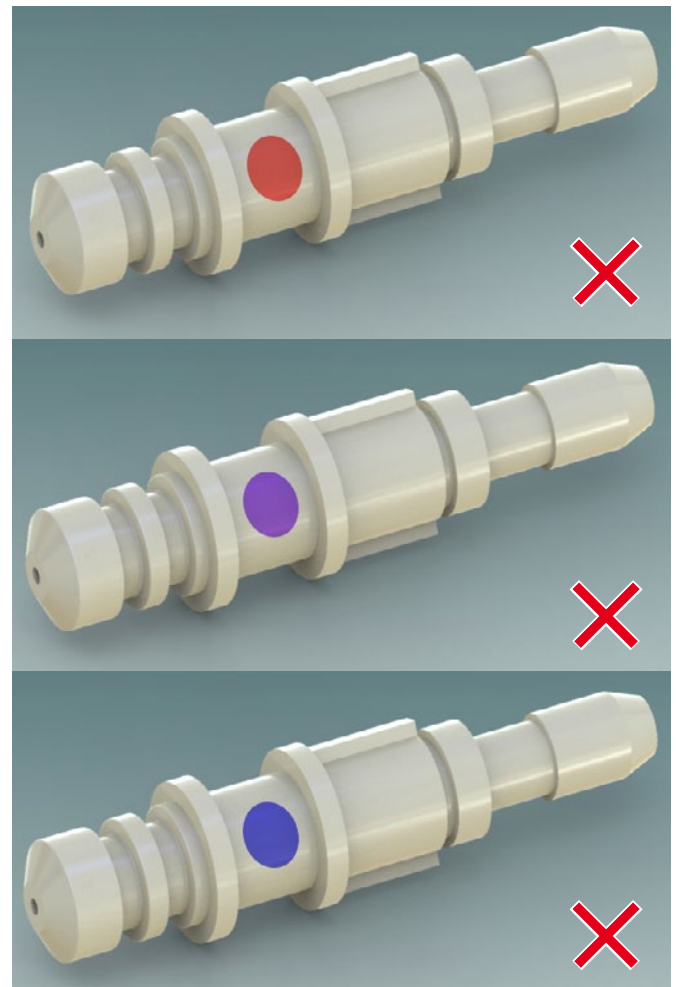

The article numbers of the steam nozzles have not changed. Starting in calendar week 10, only steam nozzles with engravings will be installed at the factory.

The new steam nozzles can be ordered free of charge from Sales SAG starting in calendar week 10. A serial number must be included with all orders.

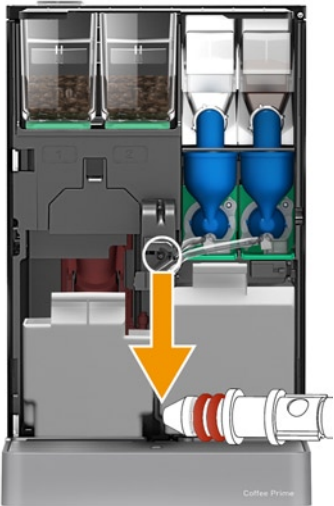

For SCP machines with the Powerpack option (2 kW and 3 kW models), we generally recommend switching over to the new engraved steam nozzles in order to prevent possible variations in the quality of hot milk foam.

Steam nozzles with engraving

Steam nozzles with colour coding

Overview of NcFoamer colour code		Steam boiler power						
		SCP 1.35 kW		SCPP 2 kW		SCPP 3 kW		
		New:	Old:	New:	Old:	New:	Old:	
		Steam nozzle code	1	Orange	2	Violet	3	Blue
		Steam nozzle tip diameter	Ø 1.38 mm		Ø 2.00 mm		Ø 2.32 mm	
Steam nozzle article number	072611		073083		073084			
Equipment for standard milk temperature (*)								
	NcFoamer set Standard 575 mm (spare parts package w/ 50 pcs.)	Orange Ø 1.15 mm 072708	Violet Ø 1.35 mm 072467	Blue Ø 1.45 mm 072469				
	NcFoamer set UC*** 750 mm (spare parts package w/ 50 pcs.)	Orange Ø 1.15 mm 073014	Violet Ø 1.35 mm 072466	Blue Ø 1.45 mm 072468				
Equipment for increased milk temperature (**)								
	NcFoamer set Standard 575 mm (spare parts package w/ 50 pcs.)	Yellow Ø 1.05 mm 072998	Red Ø 1.25 mm 072465	Violet Ø 1.35 mm 072467				
	NcFoamer set UC*** 750 mm (spare parts package w/ 50 pcs.)	Yellow Ø 1.05 mm 073047	Red Ø 1.25 mm 072464	Violet Ø 1.35 mm 072466				

(*) Temperature information with pre-chilled milk at approx. 5 °C.

Milk dispensing temperature of approx. 49 °C

Milk foam dispensing temperature of approx. 59 °C

(**) Temperature information with pre-chilled milk at approx. 5 °C.

Milk dispensing temperature of approx. 59 °C

Milk dispensing output temperature of approx. 69 °C

(***) UC = Under-counter milk
