

T.I. no.: 2015 - 11 Updated: -	Topic: Safety valve 5 bar
-----------------------------------	---------------------------

<b>Date:</b> 13/10/2015	<b>Priority</b>	<b>Need for action</b>
<b>Affected machines:</b> SCP	High	As soon as possible
<b>From serial number:</b> 1533...	X Medium	X On next visit to the machine
<b>As of date:</b> CW 33	Low	FYI only

## OVERVIEW

Until now, a 16 bar safety valve was used in the steam path. This no longer satisfies the current safety regulations in various countries. Instead of the 16 bar safety valve with article number 062126, a 5 bar safety valve with article number 068766 will be used starting in CW 33.

16 bar safety valve 062126

5 bar safety valve 068766
